

Workshop Lead

GreenUp is a registered Swiss non-profit, empowering people to use less resources in a way that is good for them and the planet. We do that by organising positive and action-oriented Events, Workshops and Projects. Do you embrace such lifestyle too?

Become a Workshop Lead ... and help us spread the LESS = MORE lifestyle!

As a workshop Lead you run and manage a GreenUp workshop on-site for a company, a school or another organisation. To become a Workshop Lead, GreenUp will train you on our mission and methods, so that you are empowered to run the workshops below! We expect that you can commit to doing at least 3 workshops per year and will reimburse you for the time spend on the workshops and your travel costs. Depending on the size of a group, other Leads or Helpers will support you in delivering the given workshop. Helpers can this way learn and be a future Lead. More info about that on page 2!

1. Foodwaste Heroes

Food Workshop

2. Travel Challenge

Mobility Workshop

3. Plogging

Cleanup Workshop

4. Waste Rebels

Minimal Waste Workshop

How to become a GreenUp Workshop Lead?

1. **Check: are you fully on board with the GreenUp Mission and the way we work?**

Watch our website and 20min video and consider whether you could see yourself standing in front of groups to represent GreenUp and the less is more positive way of seeing the world? Fits you? Then you pass on to step 2!

2. **Apply by filling out our form.** With that you commit to wanting to be trained, and helping out at workshops, until you can lead workshops yourself in name of GreenUp! We then give you all the info.

3. **Participate in an 2,5 hour online training workshop in your language** on all 4 of our base-workshops and on facilitation. Complete a knowledge quiz and submit a short presentation video afterwards, so we can see together if you are ok for step 4!

4. **Join one of the planned workshops across Switzerland as a helper**, so you can learn the GreenUp way of doing workshops; Workshop Helpers do that on a voluntary base, with travel expenses reimbursed.

5. We'll **review and evaluate together** and we decide together, whether you are happy in the Lead-role, stay rather on as a helper, a GreenUp volunteer or other!

6. **Sign a contract with us, be added to our Workshop-Lead Database and be asked on a regular base to facilitate a Workshop.** You can always say no of course, but we expect you do at least 3 per year. For each Workshop a Lead would receive 30CHF per hour, for the workshop plus preparation time (up to a maximum, agreed upfront with the workshop team), insurance is covered and travel costs are reimbursed.

7. The **GreenUp workshop team** organises most things for you, including a **workshop kit and other materials**, but sometimes you might need to support and you need to of course bring them and be in time at the location. **As a workshop Lead you always join a short briefing of 30min a few days before the workshop with your team, and at on-site you lead them!**
