### Sustainability and impact to the core of employee engagement

Foster a culture of sustainability, enhance operational efficiency and stakeholder interaction, and help to drive innovation for people and the planet.

We are the Swiss non-profit GreenUp. Through interactive experiences around **circularity, food and nature**, we take your people along on a journey to more engagement for a resource-light society. GreenUp facilitators are professionals living a less-is-more lifestyle. With their experiences they inspire, educate and activate.

- **Workshops** – 3.5 hours of theory and hands-on practice combined
- **Expert talks** – 30–60 min, on food, waste (plastics) and fashion
- **Support for your volunteering and engagement programmes** – from games at a sustainability day to co-creation with your green team.

Combinations of the above, including lunch are possible.

# Choose from 3 workshops:
